

Amine Ouaddi

949-615-1766 | aouaddi@ucsd.edu | [linkedin.com/in/aouaddi/](https://www.linkedin.com/in/aouaddi/) | github.com/reblol/

EDUCATION

University of California, San Diego

Bachelor of Science in Data Science

San Diego, CA

Sep. 2025 – Dec 2027

Norco College

Associate's in Mathematics

Norco, CA

Jan. 2022 – June 2025

EXPERIENCE

Coding Instructor

CodeAdvantage

Feb 2026 – Present

San Diego, CA

- Teach K–12 students programming fundamentals using JavaScript, emphasizing algorithmic thinking, debugging, and structured problem solving.
- Design and deliver project-based technical lessons that translate complex programming concepts into clear, actionable solutions.

Upward Bound Mentor & Tutor

College Corps

Aug. 2024 – Aug. 2025

Norco, CA

- Analyzed performance data to identify trends, root causes, and improvement opportunities using quantitative analysis.
- Maintained accurate structured datasets and data records to support reporting, evaluation, and program improvement.

PROJECTS

Portfolio Website | *HTML, CSS, JavaScript*

September 2026

- Designed and developed a responsive personal portfolio site using HTML, CSS, and JavaScript.
- Automated CI/CD deployment pipeline using GitHub Actions to continuously deploy the site to GitHub Pages.
- Built and maintained the project independently end-to-end

Tactical Viewer App | *Python, Statistical Modeling, Figma, Supabase*

Feb 2026 - Mar 2026

- Developed an analytics application to model and visualize soccer performance metrics.
- Applied statistical modeling, probability, and spatial analysis to quantify player impact and generate performance insights.
- Designed analytical workflows to transform complex datasets into interpretable metrics and visualizations for end users.

Pulsepanion | *Python, Shiny, R, SQL*

June 2025 - July 2025

- Built an end-to-end data application supporting data ingestion, transformation, analysis, and interactive visualization of structured datasets.
- Implemented data processing and SQL-style querying to generate performance metrics, trends, and analytical insights.
- Developed interactive dashboards for KPI monitoring and data-driven decision making.
- Designed modular application architecture to support scalable data workflows and future API and cloud-data integrations.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, R, JavaScript, SQL

Certificates: IBM SkillsBuild Data Fundamentals, Discrete Mathematics

Data Science & ML: pandas, NumPy, Matplotlib, scikit-learn, Jupyter Notebook

Analytics & BI: Power BI, Excel (Pivot Tables, Power Query, XLOOKUP)

Developer Tools: Git, GitHub, VS Code, Visual Studio, Jupyter, Figma, IBM Watson Studio

Databases: MySQL, SQLite
